10th Anniversary!  
Diamonds, Tin & Aluminum

## OUR 10TH YEAR BEGINS.....

Your board of directors and officers met on January 15th to review the club operations and activities and begin planning our 10th anniversary year.

Phil Brooks reported we begin the year in healthy financial shape and the board approved sending a \$100.00 donation to the MTFCA museum under construction in Indiana.

Bill Aber reported on the status of the newsletter and website, noting that Smith & Jones had resigned as a supporter with Lucas Tires and JC Taylor due for renewal in April.

The new password for the newsletter on-line is **SPOKES** in capital letters. The membership roster password is now **tt2012**.

The board also reviewed and approved the on-line report to upgrade our records and the plan to create an album of our member's cars.

Last year we were able to compress the on-line newsletter mak-

ing it quicker to download on computers and changed the way we send club emails to help reduce the possibility of others obtaining our email addresses.

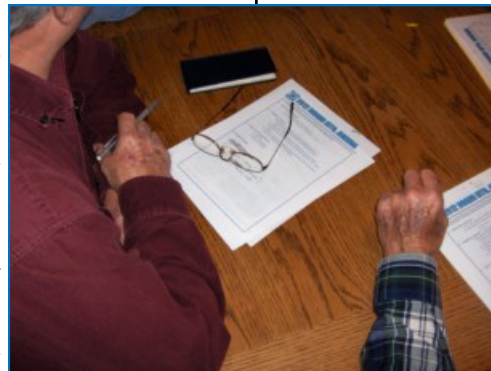

The board is reviewing the door prize plans for the annual Christmas party and a proposal that the club hold an overnight tour this year.

The annual membership meeting and elections will be held during the Silk Hope tour and the Christmas party will remain at the

Grandover Clubhouse as in prior years.

The calendar for the year was outlined pending the needs of club members, while the month of August will not have a scheduled event. History shows that attendance at events that month are low with vacations and/or the heat causing many members to pass on events in August.

As always, there are months left open for ideas which arise or technical sessions needed.
